Alive.

**Introducing  
Rubbermaid  
Design Pro  
Software**

**DesignPro**

Rubbermaid DesignPro software allows you to work easily and efficiently to create engaging, realistic and accurate designs. Most importantly, it's tailored specifically to Rubbermaid Builder Customers. DesignPro is more than a software program - it's your greatest sales tool.

### Easy to Use

Learn to use DesignPro in just a few hours with only the basic computer experience required. If needed, we offer step-by-step tutorials to get you started with more advanced training support via live web or regional seminars.

Even the most complicated designs can be rendered in less than ten minutes.

With a click of the mouse create impressive results: Change and modify designs in seconds

Design in 2D

Easily design odd shaped closets

### Sell Upgrades Effortlessly

Because changes can be implemented in seconds, customers can take an active role in the design process - receiving multiple designs and cost options. These simple comparative options are a great way to sell upgrades.

Add doors and drawers

Show "good - better - best" scenarios

Design with Ventilated Wire, Melamine, and Rapid Shelf products.

### 3 Dimensional Capabilities

The most exciting feature for customers is seeing their closets come to life. Now you can create 3 dimensional renderings that will help your client be able to envision their closet before installation.

Lifelike designs

Customize floor textures and wall colors

“Walk” through and interact with the closet

Open doors and drawers

View designs at any angle

3D to Reality

## Functional for Your Bottom-Line
